## THE WHITE WONDER OF CREATION - GREAT EXPEDITION

Experience an unforgettable festive season with numerous Zodiac rides and landings and a wonderful New Year's Eve on board. Witnessing animals prepare for the birth of their young will be your very special present.

Voyage for Young Explorers  
For ten- to seventeen-year-olds during school holidays: young explorers on board! Youngsters look at the world through different eyes: on hikes through the wilderness, Zodiac rides into the ice and age-appropriate workshops. On selected cruises to the Arctic, Antarctic and the Great Lakes, discover the proven expedition concept from Hapag-Lloyd Cruises for young people aged ten to seventeen years old. You can find further information here.

Falkland Islands (A)

The British overseas territory has more than just a turbulent history; discover its impressive birdlife the moment your Zodiac lands. With more than 60 different species, including rockhopper penguins, Magellanic penguins and albatrosses, the Falkland Islands are a paradise for ornithologists. During natural history walks along the coast, your experts will provide fascinating information about the head-high tussock grass and the Victorian houses in Stanley.

### Mon, 27.12.2021 - Wed, 29.12.2021

South Georgia (A)

In this unique wildlife paradise, the Zodiacs are used several times a day to let you experience very special sightings. For example, standing with the experts in front of a gigantic colony of king penguins. The island is home to hundreds of thousands of animals inhabiting the steep slopes and coasts – such as Salisbury Plain or the Gold Harbour beach where fur seals and elephant seals will not be disturbed by your visit. At the former Grytviken whaling station, the grave of Sir Ernest Shackleton recalls the adventures of times gone by.

South Orkney Islands (A), South Shetland Islands (A), Weddell Sea (A), Antarctic Peninsula (A)

**SOUTH ORKNEY ISLANDS**

For scientists, the Antarctic is an enormous natural laboratory – and that includes this largely glaciated island group. You will also gain an insight into the everyday lives of polar researchers when, weather permitting, you will be taken in the Zodiacs to visit the Argentinian Orcadas Station (subject to authorisation). Enjoy the pure fascination of the drifting tabular icebergs which, with a bit of luck, you will see off Signy Island, for example. The bizarre blocks that have broken off the shelf ice and their huge archways shimmer a mystical shade of blue in the cool polar light. And you will pass close by on board the ship – simply breathtaking.

**SOUTH SHETLAND ISLANDS AND THE ANTARCTIC PENINSULA**

Enjoy unforgettable moments when, for example, you set foot on the Antarctic mainland near to Paradise Bay. Snow-capped summits surround the bay, where icebergs drift and glaciers tower hundreds of metres above. The gigantic glacier cliffs, such as those of Neko Harbor, provide a unique backdrop. Gentoo penguins stretch as far as the eye can see, for example on Cuverville Island. One of the most impressive shipping passages in the world is the Lemaire Channel: mountains up to 1,000 m (3,281 ft) high line the strait of water. The Neumayer Channel and Port Lockroy provide panoramic views of glaciers that are no less breathtaking.

**ANTARCTIC SOUND AND WEDDELL SEA**

When cruising in the Antarctic Sound, the deck becomes your front-row seat for unique natural spectacles, for example when water is suddenly parted by the fluke of a majestic whale. The Weddell Sea is home to breathtaking ice formations, some of which are as tall as a house and covered by Adelie penguins, and dense pack ice. How far can your expedition ship go? For example, in 1903, the Nordenskjold expedition was forced to wait ten months to be rescued on the volcanic Paulet Island. Today, the island is home to countless penguins and, like Devil Island, makes for a very lively spectacle.
