

From Ushuaia to Ushuaia 16.01.2022 - 03.02.2022 | 18 days HANSEATIC nature

NAT2202

IN THE KINGDOM OF PENGUINS - GRAND EXPEDITION

Observe the diverse fauna of the Antarctic in detail with the HANSEATIC nature and see the creatures busy rearing their young. Time and again, you will head off in the Zodiacs to experience the first moments of a new generation – surrounded by a fascinating icy landscape. Be inspired by the perpetual circle of life in the eternal ice.

Grand route through the southern polar region with the Falkland Islands, South Georgia and the Antarctic Peninsula

Spectacular sights on a grand scale: majestic tabular icebergs in the Weddell Sea

Illuminating and fascinating: Zodiac rides and landings with an experienced team of experts

Fantastic ship passages between mountains and glaciers

The glittering icy landscapes shine in a unique interplay of colour and light

Good opportunities for whale watching

Camping in the Antarctic (You can book the camping experience directly on board. This optional activity is not included in the cruise price.)

Sun, 16.01.2022

Charter flight to Ushuaia/Argentina, departure 18.00 hrs

Mon, 17.01.2022

Relaxation at sea

Tue, 18.01.2022 - Wed, 19.01.2022

Falkland Islands (A)

The British overseas territory has more than just a turbulent history; discover its impressive birdlife the moment your Zodiac lands. With more than 60 different species, including rockhopper penguins, Magellanic penguins and albatrosses, the Falkland Islands are a paradise for ornithologists. During natural history walks along the coast, your experts will provide fascinating information about the head-high tussock grass and the Victorian houses in Stanley.

Thu, 20.01.2022 - Fri, 21.01.2022

Relaxation at sea

Sat, 22.01.2022 - Mon, 24.01.2022

South Georgia (A)

In this unique wildlife paradise, the Zodiacs are used several times a day to let you experience very special sightings. For example, standing with the experts in front of a gigantic colony of king penguins. The island is home to hundreds of thousands of animals inhabiting the steep slopes and coasts – such as Salisbury Plain or the Gold Harbour beach where fur seals and elephant seals will not be disturbed by your visit. At the former Grytviken whaling station, the grave of Sir Ernest Shackleton recalls the adventures of times gone by.

Tue, 25.01.2022

Relaxation at sea

From Ushuaia to Ushuaia 16.01.2022 - 03.02.2022 | 18 days HANSEATIC nature NAT2202**Wed, 26.01.2022 - Mon, 31.01.2022**

South Orkney Islands (A), South Shetland Islands (A), Weddell Sea (A), Antarctic Peninsula (A)

SOUTH ORKNEY ISLANDS

For scientists, the Antarctic is an enormous natural laboratory – and that includes this largely glaciated island group. You will also gain an insight into the everyday lives of polar researchers when, weather permitting, you will be taken in the Zodiacs to visit the Argentinian Orcadas Station (subject to authorisation). Enjoy the pure fascination of the drifting tabular icebergs which, with a bit of luck, you will see off Signy Island, for example. The bizarre blocks that have broken off the shelf ice and their huge archways shimmer a mystical shade of blue in the cool polar light. And you will pass close by on board the ship – simply breathtaking.

SOUTH SHETLAND ISLANDS AND THE ANTARCTIC PENINSULA

Enjoy unforgettable moments when, for example, you set foot on the Antarctic mainland near to Paradise Bay. Snow-capped summits surround the bay, where icebergs drift and glaciers tower hundreds of metres above. The gigantic glacier cliffs, such as those of Neko Harbor, provide a unique backdrop. Gentoo penguins stretch as far as the eye can see, for example on Cuverville Island. One of the most impressive shipping passages in the world is the Lemaire Channel: mountains up to 1,000 m (3,280 ft) high line the strait of water. The Neumayer Channel and Port Lockroy provide panoramic views of glaciers that are no less breathtaking.

ANTARCTIC SOUND AND WEDDELL SEA

When cruising in the Antarctic Sound, the deck becomes your front-row seat for unique natural spectacles, for example when the water is suddenly parted by the fluke of a majestic whale. The Weddell Sea is home to breathtaking ice formations, some of which are as tall as a house and covered by Adelie penguins, and dense pack ice. How far can your expedition ship go? In 1903, for example, the Nordenskjold expedition was forced to wait ten months to be rescued on the volcanic Paulet Island. Today, the island is home to countless penguins and, like Devil Island, makes for a very lively spectacle.

Tue, 01.02.2022 - Wed, 02.02.2022

Sailing through the Drake Passage

Thu, 03.02.2022

Ushuaia/Argentina, arrival 6.00 hrs
Charter flight to Buenos Aires
