First, you will chart a course for **South Georgia**, its impressive glaciers and its black-sand beaches where imposing colonies of **king penguins** have taken up residence.

Your ship will then make its way to the **South Orkney Islands**. These mountainous islands where impressive glaciers dominate the landscape are a major nesting site for **chinstrap penguins** and a favourite hunting spot of **leopard seals**.

You will then sail to the **White Continent**, realm of the unexpected. Weather and ice conditions permitting, this extreme environment where nature reigns supreme will reveal to you its most beautiful secrets through numerous discoveries.

Gentoo, Adelle and chinstrap penguins, humpback whales, seals and seabirds: these are some of the encounters you will most likely have the chance to experience in the Antarctic Peninsula, creating indelible memories.

Each day, whether on land, aboard your ship or during a **Zodiac® outing**, you will be surrounded by a grandiose decor ranging from **icebergs** to **ice floe** and **ancient glaciers**.

After crossing the mythical **Drake Passage**, you will disembark in Ushuaia, the southernmost city in the world.

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO.

SOUTH ORKNEY ISLANDS

Arrival 11/21/2021

More than 85% glaciated, these remote mountainous islands are hidden in the Southern Ocean, some 600 km from the tip of the Antarctic Peninsula. The archipelago is composed of four main islands: Coronation Island, Signy Island, Powell Island and Laurie Island. Discovered in 1821 by seal hunters, they were also explored in 1823 by the British navigator James Weddell, who gave them their current name. Despite the ravages caused by whale and seal hunting, today a sizeable leopard seal population can be found there, along with chinstrap penguins and snow petrels. Laurie Island is home to an old scientific station that is still in operation.
